Discussion topic in regards to lowering statistics in America

- ☐ Lowering the % of our Child adolescent behavioral reflecting from separation anxiety and inmate anxiety caused by separation. created by separating parental bonds from their children entrusted to them from God alone.
- ☐ Lowering the % of Child adolescent Depression and isolation created by separation the child from the parent creating a broken depressed window of deception, in a child's thought pattern process while the parent receives correction
- ☐ Lowering the % of Child loss of focus and drive to study accidemics as discontentment and frustration leading to rebellion
- ☐ Lowering the % of Child behaviors altering into negative fundamental aspects of juvenile detention and criminal youth at risk programing choices and decision making are likely made out of rebellious thoughts and feeling point of reacting to separation as withdrawn
- ☐ Lowering the % of passive aggressive adolescent behaviors after left without parental incarcerated having built up frustration ready to explode.
- ☐ Lowering the % of Child counseling and medication become a stimulate vs. conditioner and stabilizer curiosity for other drugs and developed behaviors such as violence and weapons brought to school.
- ☐ Lowering the % of Child adolescent rebellious criminal activity created from separation leading to each high school shooting already happening.
- ☐ Lowering the % of Child dropouts in high schools & lack of work motivation.
- ☐ Lowering the % of Child & teen running away grand theft auto from new family, foster child rebellion.
- ☐ Lowering the % of Teenage pregnancy and Sexual Deviant behaviors seeking out any positive or negative behaviors from whom ever gives attention, negative feeds negative, positive feeds and nurtures maturity.

Goals:

1. Communication skills of leadership and workmanship.
2. Organized leadership training
3. Financially educated and trained on proper spending and healthy savings.
4. Interview and resume classes and training.
5. Developed organizational flexibilities of responsible timely appearance.
6. Executive qualities communicating valuable leadership making decision.
7. Anger management
8. Love and Logic parenting classes.
9. Shepherding a Child's Heart By: *Tedd Trips* 15 week Video Series accomplished
10. Parents Choice parenting classes for separated parents, structure on affirmations to the relations of opposite parental.

Educational Elective Specifications and Training:

- ☐ Woodworks industry constructing creativity parent to child wood projects manufacturing parental dedication and motivating work of Arts.
- ☐ Healing Wood Arts therapy reaching parental stewardship qualities parental aspect directing products with stable structures .
- ☐ Industrial work of Art's performing academics of perfectionism with both student and parental workmanship fundamentals developed for career preferences.

- ❑ Student academic in wood manufacturing work of art's performing professional carpenter work building child dressers, bunk beds , toddler beds, stabilizing a home when the bills are only free in prison not at home.
- ❑ financial stability for parenteral outside of corrections, did the courts say child support payments that are solid and foundational.

Building financial solutions:

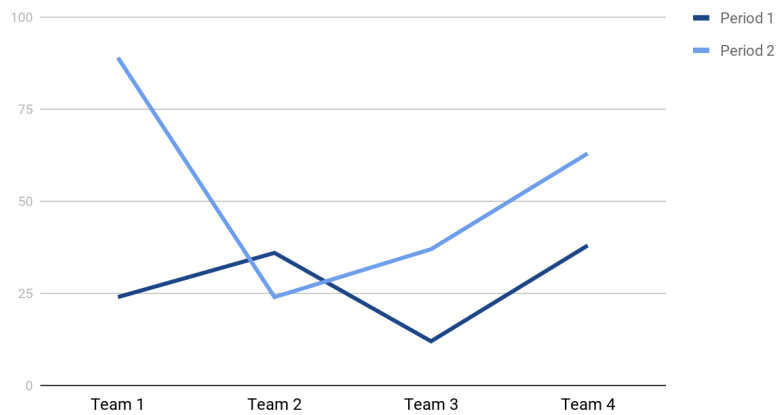

Financial Responsibilities for parenterals outside of corrections

1. Rent
2. Electric
3. Water sewer and garbage
4. School supplies and toiletries, hygiene supplies, cleaning supplies
Toilet paper, shampoo, conditioner, bodywash, deodorant, toothpaste, mouthwash, socks, undergarments, feminine supply, diapers,wipes, formula, medications.
5. School lunch money and food bills at home
6. School clothes and shoes and backpacks, pictures on picture day
7. transportation
8. Children under 18 have to have their wood furnitures of bedroom supplies
Bed, Dresser, night stand, bunk beds, toddler beds.

This is the responsibility not to mention they might want to be in Dance, Band, Drill team, basketball, softball needing well grades and physicals. Who do you advise pays for these financials while the one receiving corrections has little to no financial worries and the lights go on every day in the gym. There is no bills in prison, let's work wood together and build a healthy financial solution that eases the bills back at home for the mom struggling to provide for the kids while dads behavior gets free living in corrections or are you the child of a mom who is in corrections and dad you never see while he works two jobs as he struggles to make it to your softball game while mom got herself locked up. Where is the child support or stabilization in finances for the responsible parent. I believe it could be in the wood industry of parental finance solutions.

Financial communications
